(Japanese Fern Ball in Vegetation)

Japanese Fern

ONE of our specialities, only the best for hanging in windows or rooms as a ornament. Their graceful natures are great diversity of foliage make them much valued all the year. JAPANESE FERN BALLS are made of the hardy fern roots (*Davallia Bullata*) worked into several shapes such as houses, lanterns, monkey, junks etc. and in a dormant state travel very well. When watered they soon shoot up rich green foliage from every points. To take care is very easy. nothing trouble but water several times in a week as to keep them moisture.

TRADE PRICE LIST OF JAPANESE SEEDS, PLANTS,
AND LILY BULBS

OF

THE ORIENTAL SEED COMPANY
NURSERYMEN AND IMPORTERS

SAN FRANCISCO, CALIFORNIA.

GENTLEMEN :—

We take pleasure in submitting our price list for the coming season of 1914, and call attention to the following fact.

We are not AGENTS or BROKERS, but the largest, GROWERS and NURSERYMEN in Japan, supplying everything in the Japanese line and give our attention only to the best qualities which we produce in our own gardens. We guarantee to furnish only first class and healthy stock at the lowest possible prices.

Quotations here in are for the wholesale trade only and figures marked "Yokohama" are prices F.O.B. Yokohama, Japan, and those marked "San Francisco" are F.O.B. San Francisco, Cal. These include packing or cartage.

We will be pleased to give special prices on orders of the large quantities. While we have made prices in this list very low, yet where a number of thousands are wanted we can frequently supply them at a lower cost.

We have very gratifying reports of the blooming qualities of our goods that are being used exclusively by large dealers throughout the Eastern states and we will be pleased to have your order.

TERMS :—

NET, 60 days from date of shipment 2% off for cash in 10 days or 5% off for cash with order or before shipment. ADD 10% to cover extra cost of packing, etc. to all orders under \$5.00.

Orders from unknown correspondents must be accompanied by remittance. NO charge for deliver to express, freight or steamboat line.

TIME OF SHIPPING :—

BULBS. The trade demands the earliest possible. The LILIUM LONGIFLO-
RUM we commence shipping from the early date of September and others from October but the best time is from November to January, or they can be shipped up to the middle of March.

PLANTS. October to February.

SEEDS. Can be shipped at any time.

Order accepted subject to crop condition. We are not responsible for short crops, late or non-delivery of orders arising from accidents or any cause beyond our control.

THE ORIENTAL SEED COMPANY give no warranty, expressed or implied as to discription, quality, or productiveness of any seeds bulbs or plants they send out. If the purchaser does not accept the goods on these terms they are to be returned at once.

(Aspidistra)

Aspidistra

THE most useful "foliage" plant for the house and the porch decoration. It seems intended by nature for such purposes as it stands more neglect than any known living plant; because of its ability in that direction. It has frequently been called "The cast iron plant" not a happy designation but a fitting one. It will thrive in corner or a room where no other plants can be kept alive. The variegated form green with broad strips of white, contrast finely with decoration foliage plants, the green variety is a rich, dark colour and very popular.

	100	San Francisco 1000	Yokohama 1000
Green Leaves (rooted)	\$3.50	\$30.00	\$17.50

Paeonia Moutan

(Japanese tree peony)

THESE immense beautiful and well known flowers form another source of Japanese pride. It produces such a mammoth flowers in the handsomest colours with noble fragrant which attract a great deal of attention and surprise of visitors.

The plant is a greedy feeder and should have abundance of horse or cow dung given to it annually. Our plant is grafted on the single purple stock and care should be taken to rub off all growth from the stock and remove all suckers from time to time. The pot plant is also very handsome but after flowering it should be plant out to mature its growth.

We select following 25 varieties as the best.

Prices : \$ 6.00 per Dozen \$ 45.00 per 100, S. F., \$ 27.50 100 Yokohama.

(Diameter of flower given in inches)

- 1 Akashi-gata**, Rosy pink, petals fringed and undulated, with yellow tasselled anthers, 15.
- 2 Asahi-minato**, Rosy scarlet petals with tasselled yellow anthers, 12.

(Paeonia Moutan)

- 3 Adzuma-shibori**, Large single crimson petals shading scarlet fringed white with yellow base, 9.
- 4 Ben-ikirin**, Carmine, blush margined, 12.
- 5 Chosai-haku**, Pure white petals with tasselled golden yellow anthers, 12.
- 6 Daikagura**, Rose petals shading to pink, 9.
- 7 Iwatokagami**, Rosy scarlet petals with tasselled golden anthers, 10.
- 8 Fujino-mine**, Beautiful white with tasselled yellow anther 9.
- 9 Gequ-den**, Large white, 12.
- 10 Hana-daijin**, Purplish pink, enormous flowers, 12.
- 11 Kasumi-no-mori**, Beautiful delicate pink petals with tasselled yellow anthers, 12.
- 12 Kamadafuji**, Purplish rose, shading to rosy lilac, 10.
- 13 Kagura-shishi**, Pink, middle petals projecting, 12.
- 14 Konron-jishi**, Beautiful dark purple, 10.

33 Viburnum odoratissimum.....	1.00	80.00

Japanese Cabbage

This plant is like a Cos Lettuce in aspect, rather than like a real Cabbage. It forms a tall, fine head, no failure at all as we often see in case of Cabbage, weighing often 8-10 lbs. Leaves large, light green, crimped at the edges, with broad, white midrib. Of far milder and better flavour than any cabbage, it may be eaten raw as salad, or boiled, minced and seasoned with butter. Should be sown during spring and summer for use in the autumn or winter.

Japanese Cabbage, large giant Chokurei.

J. C. large Santo.
